

## **EVODENTAL**

### **WHAT TO DO ON THE DAY OF IMPLANT PLACEMENT**

- **PLEASE ENSURE THAT YOU HAVE EATEN A GOOD MEAL PRIOR TO TREATMENT A COUPLE OF HOURS BEFORE, AS THIS WILL HELP THE HEALING PHASE AFTERWARDS.**
- **IT IS ADVISABLE TO RINSE YOUR MOUTH WITH CORSODYL MOUTHRINSE THE NIGHT BEFORE AND MORNING BEFORE SURGERY**
- **YOU WILL BE GIVEN A DOSE OF ANTIBIOTICS WHEN YOU ARRIVE JUST PRIOR TO ANY SURGICAL TREATMENT, AND A COURSE AFTERWARDS. THIS IS FOR PREVENTION OF ANY POSSIBLE POST OPERATIVE INFECTIONS. PLEASE INFORM US IF YOU ARE ALLERGIC TO PENICILLIN SO THAT WE CAN USE AN ALTERNATIVE.**
- **PLEASE ENSURE THAT YOU HAVE PURCHASED CORSODYL MOUTHWASH (0.2% CHLORHEXIDINE DIGLUCONATE) IN ADVANCE, AS IT IS ESSENTIAL TO RINSE WITH THIS IN THE IMMEDIATE PERIOD AFTER TREATMENT IN ORDER TO FACILITATE FASTER HEALING.**
- **DO NOT DRINK ANY ALCOHOL THE NIGHT BEFORE TREATMENT.**
